# What is WizeFloor?

*Collaboration, communication and sharing of knowledge*

The **WizeFloor** is an award-winning interactive floor for education. It is designed in a way that promotes collective and differentiated learning styles and needs through play and physical activity. From a projector learning-activities are projected onto the floor. A camera tracks the movement of the players using their hands and feet to interact with the floor.

- ◆ A social and collaborative learning experience through physical movement
- ◆ Suitable for schools, nurseries, special schools, hospitals, adult education and eldercare
- ◆ The software works great on interactive tables and boards
- ◆ Approx. four to six players can use the floor at the same time

## “ Collaborative learning

“WizeFloor provides a fantastic opportunity for collaborative learning with many of the activities requiring teamwork.”

*School teacher, UK*

“

“A girl who could only say three words was able to do exercises with letters and numbers, which we had no idea she could. She could express herself using her feet.”

*SEN teacher*

“ An exciting addition

“WizeFloor is an exciting addition to our school which has improved the motivation, concentration and collaboration between our children.”

*School teacher, Denmark*

# Software

- ◆ Many activities available including quizzes, memory, balloon and categorisation games
- ◆ Create exercises with your own pictures, sounds and videos using any mobile device or computer
- ◆ Thousands of exercises for every subject and level already available through the WizeFloor community
- ◆ Available in a light, standard and premium version with different selections of apps and server space available

“

“The kids love the many different games and they can also operate it themselves. They can even create new games by phone or tablet.”

*Nursery teacher*

*Move | Play | Educate*

# NEW

## Meet WizeFloor GO

*The new portable WizeFloor*

The **WizeFloor GO** is a brand new learning product which allows you to set up WizeFloor activities at a location of your choice. The product encourages physical movement, play and collaboration and comes with a wide range of different learning activities.

- ◆ Includes projector, camera and PC in a handy box on wheels
- ◆ Move to any room and set up with ease
- ◆ Increase the projection size to fit the number of players
- ◆ Approx. three to four players can use the floor at the same time
